**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

1)  Responsive to communication(s) filed on 26 September 2006.

2a)  This action is FINAL. 2b)  This action is non-final.

**DETAILED ACTION**

***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/26/2006 has been entered.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 21, 22 and 26-30 are rejected under 35 U.S.C. 102(e) as being anticipated by Michelson (U.S. Patent No. 6,814,756).

Michelson discloses a surgical method for replacing damaged fibrocartilage between facing superior and inferior vertebrae in a patient's spine, each having a spinous process, comprising the steps of making a posterior incision into a patient's

back in the vicinity of said damaged fibrocartilage, through said posterior incision, removing damaged fibrocartilage between said superior and inferior vertebrae, creating channels in said facing superior and inferior vertebral surfaces and inserting posteriorly at least two permanently articulating vertebral implant devices between said superior and inferior vertebrae wherein there is at least one of said articulating vertebral devices on each side of a vertical medial plane defined by the spinous processes of said superior and inferior vertebrae (see Figures 14-16). The channels formed are approximately parallel to the said vertical medial plane defined by said spinous processes of said superior and inferior vertebrae. The articulating devices each comprise a cushioning member (122) sandwiched between a superior (100) and an inferior support (106) wherein said superior support is placed into fixed contact with said superior vertebrae and said inferior support is placed into fixed contact with said inferior vertebrae. The cushioning member can be considered to be a dampening matrix since it dampens part of the load absorbed. Also, protrusions (114) are formed into one or more of said supports which penetrate into vertebral tissue.

#### ***Allowable Subject Matter***

Claims 23-25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

Applicant's arguments with respect to claims 21-30 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
